CHRONOLOGICAL INDEX–1996

Naval Engineers JOURNAL

VOLUME 108

◆ January — Vol. 108 No. 1

	Page
Analysis and Simulation of Discrete Kalman Filtering Applied to a GPS Receiver Lt. Steve Bartlett, USCG, Rich LeGrand and Eric Staton	29
Computer Aided Shape Design of an Underwater Hull Dr. Shih-Wen Hsiao	37
Fast Attack Combatant for Near-Shore Operation Donald L. Blount	49
The Regional Deterrence Ship (RDS 2010) A Design for Littoral Warfare in the 2010 Timeframe Prof. Charles N. Calvano and Lt. Jeffrey S. Riedel, USN	61
Ship Impact Studies Using Small Perturbation Analysis Dr. Dean A. Rains	73
An Engine Remembered Capt. John A. Culver, USNR(Ret.)	80

◆ March — Vol. 108 No. 2

Big System Physics Applied to a Combat Suite Richard A. Holden and Dr. Robert W. Thomas	17
Comparison of Fiber Optic and Conventional Sensors for Naval Applications Nancy Albor, John Herr, Steve Mastrogiovanni, Francis Mulderrig, Larry Nucci, Anthony Price, David Remner and James R. DiTaranto	29
The Rational Behavior Software Architecture for Intelligent Ships: An Approach to Mission and Motion Control Lt.Col. Ronald B. Byrnes, USA, Dr. Anthony J. Healey, Dr. Robert B. McGhee, Dr. Michael L. Nelson, Dr. Se-Hung Kwak and Dr. Donald P. Brutzman	43
Drydock Water Pollution Control Efforts at Norfolk Naval Shipyard Philip M. Host	57
PHALANX Integrated Maintenance System: The Future in Electronic Maintenance Today Glenn C. Raley and Amy H. Lewellyn	65

◆ May — Vol. 108 No. 3

How Much Stealth? Cdr. Charles H. Goddard, Donald G. Kirkpatrick, Dr. Peter G. Rainey and James E. Ball	105
Why Can't We Get the Lead Out? A Review of U.S. Navy Surface Ship Service Life Allowance for Weight and Stability LCdr. Stephen W. Surko, USN	117
Submarine Power Sources for the Mission A.J. Donaldson, B.Sc, M.Sc, MINucE, CEng	129
Total System Ship Design in a Supersystem Framework William A. Hockberger	147
Problem Resolution During Life Cycle Maintenance: A Case Study Robert J. Kerchner, John Bailey, Mike McCarthy, Robert H. Seegal, Jeanne Warpinski and Jerry Wilson	171
Engineering Off-the-Shelf Solutions: A Life Cycle View Doug Belair and Mike Eagan	181
Standards-Based IETMs: The Key to Integrated Weapon System Support Thomas Patton and John R. Quallen	193
Affordability, Logistics, R&D and Fleet Systems Donald P. Schulte and Dr. Alfred Skolnick	199
Success Comes in Cans: Solid Waste Management for NSSN Teresa L. Miles, Thomas A. Moran and Robert E. Payne	217
Feasibility Study of a Novel Integrated Electric Motor/Pump for Underwater Applications Dr. C. Peter Cho and William P. Krol Jr.	233
The Development of Permeable Membrane Air Dehydrators for the U.S. Navy Thomas Theis and Stephen E. Titus	243
Powering the Future with the Integrated Power System LCdr. Norbert Doerry, USN, Henry Robey, LCdr. John Amy, USN and Chester Petry	267
Simulation Modeling of LHA 1 Class Cargo Handling System Paavo Sumera, Daniel Feeney, Andrew Grzelka and Michael Royle	283
Test and Analysis of Missile Exhaust Effects on the Collective Protection System Richard E. Miller Jr. and Robert A. Lamontagne	299
USS *Anzio* EMPRESS II Trial John M. Nelson, Charles S. Jones and Linda A. Poston	315
Combat Casualty Simulation on Shipboard Electrical Power Systems (Active Demonstration) Michael O. Goodnow and Jay W. Rumburg	335
STANDARD Missile 2 BLOCK IV Missile/ Ship Integration Jon W. Frederick, Micheal M. Kordich and Dean A. Pollet	343
Naval Applications of High Frequency Over-the-Horizon Radar James M. Headrick and Joseph F. Thomason	353
Design of a Real-Time Multisensor Search and Track System for the Detection and Tracking of Low-Flying Anti-Ship Cruise Missiles R. Pawlak, R. Horman, R. Stapleton and R. Headley	363
Waterjet to Hull Load Transfer Dr. Keith Alexander	375

Waterjet to Hull Load Transfer Dr. Keith Alexander	375

Page

Comparative Analysis of Metal and Composite Materials for the Primary Structures of a Patrol Craft
Philippe Goubalt and J. Stephen Mayes 387

Uncertainty Analysis of Structural Strength of Stiffened Panels
Dr. Rafi L. Muhanna, Dr. Bilal M. Ayyub and Daniel D. Bruchman 399

♦ July Vol. 108 No. 4

Naval Ship Affordability
Dr. Dean A. Rains 19

Polymer Current Limiters: Affordable Protection for the Navy's Electrical and Electronic Components
Charles Singer, Dr. Roger Dougal, Dr. Anil Duggal and Kathy Palmer 31

Pulsed Radiography for Detection of Corrosion on Shrink Wrapped Shipboard Electrical Connectors
Dr. Harry A. Schmitt, David G. Sample and Dr. Yeming Gu 35

Situation Assessment Through Collaborative Human-Computer Interaction
Scott D. Kushnier, Christof H. Heithecker, Dr. James A. Ballas and Daniel C. McFarlane 41

Risk Reduction Through Public Participation in Environmental Decisions
Gary M. Rahl 53

New Construction at the Boston Navy Yard 1941-1945
Capt. Donald H. Kern, USN(Ret.) and RAdm. James A. Brown, USN(Ret.) 59

Page

♦ September Vol. 108 No. 5

Engineering 21st Century Systems
Dr. Thomas A. Clare and Richard A. Holden 19

Electronic Warfare Innovations
Leo W. Lemley 29

Naval Ship Engine Exhaust Emission Characterization
LCdr. Stephen P. Markle, USN and Capt. Alan J. Brown, USN 37

Low Observable Technology for Future Surface Combatants
John Nicholas and Dr. Robert D. Strattan 49

U.S. Navy Halon 1301 Simulant Identification Project
William Leach 57

♦ November Vol. 108 No. 6

Dechlorination Equipment Development for Shipboard Pollution Prevention
Keith E. Lucas, Jan Otto Bergh and D. Kenneth Christian 19

Modeling and Simulation in the Sealift Program
David Edinberg, Keith Back and Lt. Col. Joe McVeigh, USA 27

Navy Proactive Maintenance
Conrad P. Hedderich, P.E. 41

System Engineering of Computer Integrated Manufacturing
Abdul R. Habayeb, Ph.D. 59

Time Synchronization Services Aboard Surface Ships
Karen F. O'Donoghue and David T. Marlow 73

AUTHOR INDEX–1996

VOLUME 108

	Month	Page
◆ A		
Albor, Nancy Comparison of Fiber Optic and Conventional Sensors for Naval Applications	MAR	29
Alexander, Dr. Keith Waterjet to Hull Load Transfer	MAY	375
Amy, LCdr. John Powering the Future with the Integrated Power System	MAY	267
Ayyub, Dr. Bilal M. Uncertainty Analysis of Structural Strengtn of Stiffened Panels	MAY	399
◆ B		
Back, Keith Modeling and Simulation in the Sealift Program	NOV	27
Bailey, John Problem Resolution During Life Cycle Maintenance: A Case Study	MAY	171
Ball, James E. How Much Stealth?	MAY	105
Ballas, Dr. James A. Situation Assessment Through Collaborative Human-Computer Interaction	JUL	41
Bartlett, Lt. Steve, USCG Analysis and Simulation of Discrete Kalman Filtering Applied to a GPS Receiver	JAN	29
Belair, Doug Engineering Off-the-Shelf Solutions: A Life Cycle View	MAY	181
Bergh, Jan Otto Dechlorination Equipment Development for Shipboard Pollution Prevention	NOV	19
Blount, Donald L. Fast Attack Combatant for Near-Shore Operation	JAN	49
Brown, Capt. Alan J., USN Naval Ship Engine Exhaust Emission Characterization	SEP	37
Brown, RAdm. James A., USN(Ret.) New Construction at the Boston Navy Yard 1941-1945	JUL	59
Bruchman, Daniel D. Uncertainty Analysis of Structural Strength of Stiffened Panels	MAY	399
Brutzman, Dr. Donald P. The Rational Behavior Software Architecture for Intelligent Ships: An Approach to Mission and Motion Control	MAR	43
Byrnes, LT.Col. Ronald B., USA The Rational Behavior Software Architecture for Intelligent Ships: An Approach to Mission and Motion Control	MAR	43
◆ C		
Calvano, Prof. Charles N. The Regional Deterrence Ship (RDS 2010) A Design for Littoral Warfare in the 2010 Timeframe	JAN	61
Cho, Dr. C. Peter Feasibility Study of a Novel Integrated Electric Motor/Pump for Underwater Applications	MAY	233
Christian, D. Kenneth Dechlorination Equipment Development for Shipboard Pollution Prevention	NOV	19
Clare, Dr. Thomas A. Engineering 21st Century Systems	SEP	19
Culver, Capt. John A., USNR(Ret.) An Engine Remembered	JAN	80
◆ D		
DiTaranto, James R. Comparison of Fiber Optic and Conventional Sensors for Naval Applications	MAR	29
Doerry, LCdr. Norbert, USN Powering the Future with the Integrated Power System	MAY	267
Donaldson, A.J. Submarine Power Sources for the Mission	MAY	129
Dougal, Dr. Roger Polymer Current Limiters: Affordable Protection for the Navy's Electrical and Electronic Components	JUL	31
Duggal, Dr. Anil Polymer Current Limiters: Affordable Protection for the Navy's Electrical and Electronic Components	JUL	31
◆ E		
Eagan, Mike Engineering Off-the-Shelf Solutions: A Life Cycle View	MAY	181
Edinberg, David Modeling and Simulation in the Sealift Program	NOV	27
◆ F		
Feeney, Daniel Simulation Modeling of LHA 1 Class Cargo Handling System	MAY	283
Frederick, Jon W. STANDARD Missile 2 BLOCK IV Missile/Ship Integration	MAY	343
◆ G		
Goddard, Cdr. Charles H., USN How Much Stealth?	MAY	105
Goodnow, Michael O. Combat Casualty Simulation on Shipboard Electrical Power Systems (Active Demonstration)	MAY	335
Goubalt, Philippe Comparative Analysis of Metal and Composite Materials for the Primary Structures of a Patrol Craft	MAY	387
Grzelka, Andrew Simulation Modeling of LHA 1 Class Cargo Handling System	MAY	283
Gu, Dr. Yeming Pulsed Radiography for Detection of Corrosion on Shrink Wrapped Shipboard Electrical Connectors	JUL	35

	Month	Page
◆ H		
Habayeb, Abdul R., Ph.D. System Engineering of Computer Integrated Manufacturing	NOV	59
Headley, R. Design of a Real-Time Multisensor Search and Track System for the Detection and Tracking of Low-Flying Anti-Ship Cruise Missiles	MAY	363
Headrick, James M. Naval Applications of High Frequency Over-the-Horizon Radar	MAY	353
Healey, Dr. Anthony J. The Rational Behavior Software Architecture for Intelligent Ships: An Approach to Mission and Motion Control	MAR	43
Hedderich, Conrad P., P.E. Navy Proactive Maintenance	NOV	41
Heithecker, Christof H. Situation Assessment Through Collaborative Human-Computer Interaction	JUL	41
